H. H. Corson, Esq.,
University of Toronto.

Dear Mr. Corson:

After consulting Dean Fasenhan of the Faculty of Education I am of opinion that I cannot recommend the Governors to provide the additional salary for retaining your services here during the month of April.

Yours sincerely,

President.

President Falconer

My Dear Mr President: For some months I have been endeavoring to see you re the work of my department. But unfortunately we have not been able to meet.

In past terms my period has always ended on March 31st. This year I wish that there could be a month's extension, because the Faculty of Education students have been so held back in their swimming the last few months that I cannot pass them all. First there was the vaccination order which prevented the girls swimming when scabs were on their leg or arm. Then the influenza held many out of their classes because the girls had to teach where teachers elsewhere were down with the influenza. Then the girls who did come did not get well started until now, and from now on are able to absorbe much information, which they would not get should I leave March 31st.

Both Dean Pakenham and Dr Barton agree with me in this matter, and I have held off an offer of three times the price I offer my services for for

april. the Y. W. C. A. national Board of New York desired my services for next month and I have refused, because I feel that my first duty is here, in this Province where I was born and raised my family. And though the stress of supporting three returned aviators is, or has been upon me, I consider that I cannot ask more than the usual $200 for next month, and if the Board of Govenors of the University will consider favorably the request that my services be continued I will willingly stay on another month.

In order to keep in good health for vigorous studies the girls should take some form of exercise — then why not a utility form wherein they will be the better prepared to resist drowning this coming summer?

I am,
very sincerely yours,
G. H. Corsan
